

MUHAMMAD IQBAL

FULL-STACK DEVELOPER

Jakarta, Indonesia | 081224622235 | iqbalshl08@gmail.com | www.linkedin.com | [portfolio-iqbal](#)

An IT Professional with a Bachelor's degree in Informatics Engineering and over three years of experience in the IT field, with a strong interest in pursuing a career as a Full-Stack Developer. Experienced in IT Support, network configuration, hardware and software maintenance, IT asset management, and IT procurement. Actively expanded technical expertise by completing a Full-Stack Developer Bootcamp and gaining hands-on experience in web application development. Skilled in JavaScript, Java, HTML, CSS, Node.js, React, Express.js, Next.js, and database management. Developed several web and desktop-based projects, including a Film Website using React and Express, a Point of Sale (POS) system using Next.js, a To-Do-List web application, and a Java-based Payroll Management Application. Detail-oriented and highly motivated to continuously develop technical skills while building a career in Full-Stack Development.

Project Experiences

Film Web - Hariseni.com Final Project 2026
Full-Stack Developer

- Developed a full-stack film web application using React.js and Express.js with a client-server architecture.
- Built and integrated RESTful APIs for film data management and CRUD operations.
- Designed and managed a MySQL relational database, using DBeaver for database administration and query testing.
- Used Laragon as the local development environment for application and database development.
- Implemented frontend-to-backend API integration, data validation, authentication, and error handling.

Kasir Web - Self Project 2026
Full-Stack Developer

- Developed a web-based Point of Sale (POS) system using Next.js and JavaScript for product and transaction management.
- Built and tested RESTful APIs using JWT authentication, middleware, and Postman for secure API access and validation.
- Managed relational data using Neon PostgreSQL and Prisma ORM, including CRUD operations, database relationships,.
- Implemented sales transaction workflows, stock management, payment processing, and transaction history.

To-Do-List - Harisenin.com Project 2026
Full-Stack Developer

- Developed a responsive To-Do List web application using HTML, CSS, and JavaScript.
- Implemented task management functionality including creating, displaying, updating, and deleting tasks using JavaScript and DOM manipulation.
- Implemented interactive user interfaces and client-side data handling to provide a responsive user experience.
- Deployed the web application using Vercel for public access.

Desktop Payroll Management Application - Final Project

2021

Java Developer

- Developed a Java-based desktop payroll management system for employee and salary management.
- Implemented CRUD operations and payroll processing, including salary, allowances, deductions, and net salary calculations.
- Integrated the application with MySQL using JDBC, with XAMPP for local database development and phpMyAdmin for database management.
- Develop, test and fix bugs in the application using the NetBeans IDE.

Organization Experiences
